HOUSTON 2019

▶ **ARE YOU
LEADING
INNOVATION
IN EDUCATION?**

Do you have a story to tell?

The Annual Event marks the largest gathering of members, bringing together like-minded education leaders from across the country to network, share ideas, learn from each other, and plan for the future.

We encourage courageous, innovative leaders in education to share their story to energize and inspire other members on the same journey.

ANNUAL EVENT

HOUSTON 2019

SESSION STRANDS

STUDENT LED LEARNING

Across the PLC, schools and districts are placing students at the center of their work in a variety of ways and elevating student voice in the learning process. These sessions will highlight practices, strategies, and structures designed to position students as leaders of their own learning.

LEADING 4CS TRANSFORMATION

How do you build on pockets of innovation to transform a system to prepare every student for college, career, and life in the 21st century? Many members have developed a Portrait of a Graduate that provides a strategic direction for the redesign of the overall educational experience for students. This strand will highlight effective strategies for developing a Portrait of a Graduate, aligning systems to support that vision, as well as practices and dispositions essential in leading 4Cs transformation work.

4CS THROUGH AN EQUITY LENS

EdLeader21 believes that the 4Cs are essential for EVERY student. EdLeader21 member schools and districts are working diligently to remove barriers and provide ALL students with access and opportunities to develop the 4Cs. These sessions will focus on what it means to apply an equity lens to 4Cs implementation.

4CS IN PRACTICE

A variety of teaching and learning models, methods, and practices create a context for the 4Cs. From designing interdisciplinary units to creating authentic learning experiences, these sessions will focus on effective ways to integrate the 4Cs into curriculum, instruction, assessment, and professional learning.
