## AI Innovation Group

In the rapidly evolving field of educational technology, artificial intelligence (AI) represents a pivotal advancement. The AI Innovation Group is dedicated to exploring, developing, and guiding the integration of AI tools across K-12 school districts. This group is tasked with creating an AI Strategy Tool that will assist school leaders in responsibly harnessing AI technologies to enhance educational outcomes, streamline administrative processes, and create personalized learning experiences.

**Essential Question:** How can AI help us streamline operations and deepen learning experiences while preserving equity and accessibility?

**Innovation Group Goals and Focus:** The Innovation Group's work will center on critical areas such as enhancing pedagogical practices with AI, streamlining operations through automation, and fostering environments that prepare students for a future integrated with AI.

**Deliverables:** The Innovation Group will develop an AI Strategy Tool for K-12 school district leaders, detailing guidelines for AI integration, practical applications in educational settings, and strategies for building the capacity of educators to use AI tools effectively.

**Intended Outcomes:** The intended outcome is to enhance the capacity of school districts to integrate AI in a manner that supports Deeper Learning and operational efficiency. The group aims to equip leaders with the knowledge to implement AI solutions that are ethical, effective, and transformative.

**Timeline:** The Innovation Group will meet during four virtual sessions focused on examining current research, sharing insights, and collaboratively developing the AI Strategy Tool.

**Leadership:** The Innovation Group will be led by Battelle for Kids staff. A member chair with expertise in technology and innovation will also be appointed from a participating EdLeader21 district.

**Open To:** All interested educators from EdLeader21 member districts are welcome to join.
