

2023-28 STRATEGIC PLAN

- ◉ **Academics**

- Provide an equity-based educational system that supports the needs of all students.
- Provide lifelong learning opportunities for the educators who support our students.
- Provide rigorous and relevant curriculum and instruction to address New York learning standards and frameworks through the Curriculum Cycle and Curriculum Alignment Process.

- ◉ **Communication and Collaboration**

- Be the first and best source of school district information while providing avenues for two-way communication with the district's many stakeholders.
- Create an atmosphere of transparency and trust between the district and its students and their families, district staff and the greater New Hartford community.
- Provide district staff learning opportunities so that staff members may continue to grow their individual communication skill sets.

- ◉ **Facilities**

- Develop improved district safety procedures and facility security.
- Implement a long-range capital improvement plan for facilities and bus replacement.
- Integrate energy performance enhancements with facilities maintenance.
- Implement advancements in technology.

- ◉ **School Environment and Connections**

- Conduct annual student surveys to gauge student perception of school climate.
- Effectuate increases in the average daily attendance of students in all schools.
- Provision of an equity-based educational system that supports student voice.
- Increase the percentage of students enrolled in Career and Technical Education (CTE) and Science, Technology, Engineering and Mathematics (STEM) courses.
